

JUNE

Dive into Carpentry Fun!

Carpentry Adventures for Beginners

This June, we embarked on an exciting journey to introduce lower-level students to the world of carpentry and furniture building! Our project is all about having fun while learning new skills, with safety as our top priority. We're taking it step by step, helping them master the art of cutting local wood with confidence and creativity.

Volunteer Spotlight

Kakeeto Hannington

This month, meet our Uganda Director, Kakeeto Hannington, our guiding light and local hero, leading our sanctuary and coordinating volunteers. We strategize weekly via WhatsApp on how to best support the children.

Kakeeto has been appointed as the **Speaker of the Youth and Children Council Committee** by the **Buganda Kingdom**. This honor reflects his exceptional service at Happy Hüt Sanctüary, recognizing our sanctuary as a **top childcare organization** in the Kajjansi region for 2023 and 2024! His work will continue to impact young lives across Uganda for years to come. The photos show his oath-taking ceremony. We celebrate Kakeeto and the incredible work at our Happy Hüt Sanctüary! 😊🙏

Munyonyi Gideon

Our June Student of the Month is Munyonyi Gideon. At just 9 years old, he has a passion for singing and dancing. His preferred meal is rice with peas, and he loves mangoes as his favorite fruit. Munyonyi truly enjoys school and dreams of becoming a teacher in the future.

Malaria Season

Malaria is a significant public health concern in Uganda, where it is endemic and a leading cause of illness and death. The country experiences high transmission rates, particularly during the rainy seasons when mosquito breeding is most active. Efforts to combat malaria in Uganda include the distribution of insecticide-treated mosquito nets, indoor residual spraying, and public health campaigns to raise awareness and promote preventive measures.

At Happy Hüt Sanctüary, we are aiming to reduce the risk of bites to our children with long sleeves, pants, and new mosquito nets!

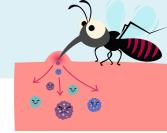

Current Challenge

Our current challenges are still to fill the Happy Tummies Club with Donors at \$15 per month. We need 14 more donors to fill the club and cover our current monthly food costs. We were able to secure 5 nets so far, and still need 21 more new mosquito nets, to protect our children from malaria during their resting times.

We currently care for 65 children, who sleep 2–3 per bunk bed. To fully protect them, we need approximately 23 new mosquito nets, one for each bed. Our current nets are three years old, and they should be replaced yearly to be most effective. Each new net costs \$14.

We invite you to take part in this urgent and life-saving effort by signing up to feed a child's tummy, and protect them with a new sleeping mosquito net for one of our beds this rainy month. Your contribution will help us keep our children safe, healthy, full, and resting peacefully at night.
